The major part of DO & CO's locations reports increases in revenue in their local currency. It is particularly the locations in Germany, the US, Great Britain, Poland and Italy that report a positive development. With regard to Ukraine, a downward trend in the business development was reported, particularly due to the loss of the most important customer who now does his own catering. NIKI transferred its business to Germany and Switzerland and implemented a buy-on-board concept. Consequently, the revenue generated with NIKI has decreased.

In Turkey, one of the key markets of DO & CO, revenue declined by -8.6% in the local currency (Turkish lira). The decrease in revenue translates to a decline by -24.1% in the consolidated income statement of DO & CO due to the depreciation of the Turkish lira against the euro. Since the main portion of costs is incurred in the local currency, the margins remain basically unaffected by this development.

Condensed Notes to the Consolidated Financial Statements for the 1st Quarter of 2017/2018 (unaudited)

1. General information

1.1. Basis

DO & CO Aktiengesellschaft (DO & CO, the Company), domiciled in 1010 Vienna, Stephansplatz 12, is the parent company of an international catering group. It conducts business in the three divisions Airline Catering, International Event Catering, and Restaurants, Lounges & Hotel.

The reporting date is 31 March.

The interim financial statements of all subsidiaries included in the consolidated financial statements were properly prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the EU that are effective for the business year 2017/2018, and in accordance with group-wide accounting principles set out by the parent company.

The interim consolidated financial statements as of 30 June 2017 were prepared in accordance with IAS 34 (Interim Financial Reporting). The interim consolidated financial statements do not contain all information and disclosures that are included in the financial statements, and should be read in connection with the consolidated financial statements as of 31 March 2017.

Unless otherwise stated, the interim consolidated financial statements were prepared in millions of euros (m€), figures in the notes are also given in millions of euros (m€). Both individual figures and total amounts represent the smallest rounding difference. When the reported individual figures are aggregated, slight differences to the reported total amounts may therefore arise.

The interim consolidated financial statements as of 30 June 2017 have neither been audited nor reviewed.

1.2. Accounting and valuation methods

The accounting and valuation methods applied in the course of the preparation of these interim consolidated financial statements comply with those used in the consolidated financial statements as of 31 March 2017.

No new and/or amended standards and interpretations became effective in the first quarter of the business year 2017/2018 or were adopted early on a voluntary basis.

For further information on the accounting and valuation methods applied, we refer to the consolidated financial statements as of 31 March 2017 that form the basis of these condensed interim consolidated financial statements.

The preparation of the interim consolidated financial statements in accordance with generally accepted accounting and valuation methods requires assumptions and estimates to be made which have an effect on the amount and the presentation of the reported assets and liabilities, on the disclosed contingent assets and liabilities at the end of the interim reporting period, as well as on the income and expenses reported during the reporting period. Although these estimates are made to the best of our knowledge based on current transactions, the actual values may in the end deviate from these estimates.

1.3. Scope of consolidation

There have been no changes to the scope of consolidation as compared to 31 March 2017.

1.4. Seasonality

Airline Catering and International Event Catering are subject to fluctuations in business volume. Whereas increased flight and passenger numbers are of significant importance for airline customers particularly in the first and second quarter of the business year due to the holiday and charter season, the changing dates for major sporting events are key in International Event Catering. In the first quarter this seasonality is reflected in the working capital structure.

2. Comments on the Consolidated Statement of Financial Position

2.1. Shareholders' equity

By resolution of the 19th General Meeting of Shareholders of DO & CO Aktiengesellschaft held on 27 July 2017, a dividend of € 0.85 per dividend-bearing share for the business year 2016/2017 was approved.

Furthermore, the members of the Management Board were granted the right to acquire shares of their own (on exchange/off exchange) to an extent of 10% of the nominal capital.

3. Comments on the Consolidated Income Statement

3.1. Revenue

One reason for the decline in revenues in the Airline Catering division is the significant loss in value of the Turkish lira against the euro. Furthermore, Turkish DO & CO initiated a cost-cutting programme for its main customer Turkish Airlines in the business year 2016/2017, resulting in a corresponding reduction of revenues. The significant revenue decrease in the International Event Catering division is particularly due to the missing activities during the European football championship compared to the previous year.

3.2. Other operating income

The costs estimated to be incurred by the social plan in the course of the reorganisation of the French subsidiary have decreased as a result of reaching an agreement with the employee representatives and obtaining the approval by the authorities. The provision was therefore partially released.

3.3. Result of equity investments accounted for using the equity method

In the first quarter of the business year 2017/2018 € 0.18m proportionate losses were recorded off-balance sheet.

3.4. Earnings per share
