Quick ratio = (current assets – inventories) / current liabilities

Business environment

The business environment for our core markets remained intact for the 3rd quarter of the year. Clearly enough for both the supply and demand side, the retailers in our core markets have to great extent adjusted their price point, reflected in somewhat higher price inflation in the consumer segment. The low demand for the base materials, including oil, created worrying assumptions with regards to the value of the national currencies in our core markets – Russia, Belarus, Kazakhstan et al. Nevertheless, the countries indicated that some gunpowder is still left, somewhat winning back the losses against the major currencies of the world. On average, in Q3 2015 the Russia's rouble traded at 46% discount to EUR compared to the Q3 in the previous year, the Belarus rouble retreated by 33% in the respective period, and the Ukrainian Hryvnia depreciated for about 42%. This, in short, means that consumers in those markets had less purchasing power to satisfy for the need to re-stock compared to their liquidity in the same period a year ago.

On the other hand, we have notified some healthier trends in the economies of our core markets, i.e. that the rent prices, affecting the profitability of our own shops and the franchise business, have started to retreat. When previously the dropping customer traffics at stores remained unnoticed by landlords, the current indicates much more flexibility to meet the outcry of the retailers regarding the rental cost. Whether and to which extent this tendency shall compensate for the less business is yet unclear.

Further to the tendencies noted above, we see the customers returning to the stores. It is probably too early to call it breaking point, but at least it signals that the buyers are out there. More business is noted in the cheaper segment of the product offering.

Unfortunately we saw the consumption of the Group's products deteriorating for Russia's consumer market. The Q3 2015 sales totalled 8 746 thousand EUR against 17 037 thousand EUR in the respective period a year ago. When aggregated, the 9m 2015 sales reached 27 086 thousand EUR in 2015 compared to 47 582 thousand EUR during 9m of 2014, indicating a backdrop of 43.1%. Notwithstanding the heavy windfalls, the Group's financial position and the profitability speak of the timely downsizing process that has enabled to retain the profit generation ability in general.

In Belarus, the Q3 2015 sales totalled 5 817 thousand EUR, retreating from the Q3 sales in the previous year of 10 980 thousand EUR. Given that last year included significant sales discounts, the profitability of sales eventually increased. The total sales for 9m in 2015 reached 16 986 thousand EUR compared to 26 491 thousand EUR a year ago, which is 35.9% less in EUR terms than in the previous year.

In Ukraine, the sales continue to stall, outpaced by Kazakhstan by total sales volume. We sold in Ukraine for 611 thousand EUR in Q3 2015, down from 1 183 thousand EUR in Q3 of 2014. 9m 2015 aggregated sales in the region totalled 1 412 thousand EUR, down from 2 489 thousand EUR a year ago, which is 64% less.

The market continued to contract also on our other main markets, including the Baltics where we also conduct own retail operations.

We continue to monitor the development of the currency rates, especially the Russia's Rouble, Belarus Rouble and Ukrainian Hryvnia. The more stable the currencies, the more we see our intermediaries becoming more aggressive on purchases. On the cost side, we are keeping tight control over the overhead costs and continue monitoring the efficiency of our capital usage (especially the inventory and purchasing planning). The more successful we are there, the better we become on the performance of the owners capital that has been entrusted with us by the shareholders.

Financial performance

The Group's sales amounted to 51 871 thousand EUR during 9 months of 2015, representing a 40.5% decrease as compared to the same period of previous year. Overall, wholesales decreased by 42.8% and retail sales decreased by 29.6%, measured in EUR.

The Group's reported gross profit margin during 9 months of 2015 continued to improve, increasing year-to-year to 46.2%, reported gross margin was 33.9% in the respective period of previous year. Consolidated operating profit for 9 months of 2015 amounted to 11 544 thousand EUR, compared to 10 659 thousand EUR in 9 months of 2014 (the contribution of the Q3 2015 was 4 341 thousand EUR compared to 2 803 thousand EUR in Q3 2014). The consolidated operating profit margin was 22.3% for 9 months of 2015 (12.2% in 9 months of 2014). Consolidated EBITDA for 9 months of 2015 was 13 484 thousand EUR, which is 26.0% in margin terms (13 025 thousand EUR and 14.9% for 9 months of 2014).

During 9 months of 2015 the Group continued with internal restructuring, which will allow us to streamline internal management and intragroup capital allocation. This brought 2.4 million EUR of additional income tax expense. As a result reported consolidated net profit attributable to equity holders of the Parent company for 9 months of 2015 amounted to 7 908 thousand EUR, compared to net profit of 8 431 thousand EUR in 9 months of 2014, net profit margin attributable to equity holders of the Parent company for 9 months of 2015 was 15.2% against 9.7% in 9 months of 2014.

Financial position

As of 30 September 2015 consolidated assets amounted to 51 141 thousand EUR representing decrease by 24.1% as compared to the position as of 31 December 2014.

Trade and other receivables decreased by 3 245 thousand EUR as compared to 31 December 2014 and amounted to 3 661 thousand EUR as of 30 September 2015. Inventory balance decreased by 12 374 thousand EUR and amounted to 14 088 thousand EUR as of 30 September 2015.

Equity attributable to equity holders of the Parent company decreased by 6 772 thousand EUR and amounted to 39 981 thousand EUR as of 30 September 2015. Current liabilities decreased by 5 301 thousand EUR during 9 months of 2015.

Notes to the Interim Report

Note 1 Summary of significant accounting policies

AS Silvano Fashion Group is a company registered in Estonia. This Interim Report of the Group is prepared for the reporting period ended 30 September 2015 and comprises parent company and its subsidiaries.

The principal accounting policies applied in the preparation of this Interim Report are set out below. The policies have been consistently applied to all the years presented unless otherwise stated.

The Interim Report has not been audited or reviewed by external auditors.

Basis for preparation

This Interim Report of AS Silvano Fashion Group for 9 months of 2015 ended on 30 September 2015 has been prepared in accordance with IAS 34 “Interim financial reporting” as adopted by the European Union. The Interim Report should be read in conjunction with the Annual Report for the financial year ended on 31 December 2014, which have been prepared in accordance with IFRS as adopted by the European Union.

As the Belarus economy has ceased to be hyperinflationary starting from 01.01.2015, the Group has discontinued the preparation and presentation of financial statements by applying IAS 29 “Financial Reporting in Hyperinflationary Economies”. The amounts expressed in the measuring unit current (e.g. inventory, property, plant and equipment) as at 31.12.2014 are the basis for the carrying amounts in its subsequent financial statements. Other accounting policies applied are consistent with those of the Annual Report for the financial year ended on 31 December 2014, as described in respective Annual Report. Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

This Interim Report is comprised in thousands of Euros (EUR).

The Group’s performance is not significantly affected by any seasonal or cyclical factors. Nevertheless revenue during vacation periods and holidays in CIS countries is usually higher compared to other periods.

New standards and interpretations

In additions to disclosures already made in the Annual Report for the financial year ended on 31 December 2014 there are no new IFRSs or IFRIC interpretations that are effective for the financial year beginning on or after 1 January 2015 and that would be expected to have a material impact on the group.

Note 10 Operating segments

The Group's operating segments have been determined based on regular reports being monitored and analysed by Management and Supervisory Boards of the parent company on an on-going basis.

The Management and Supervisory Board consider the business primarily from the activity perspective, monitoring separately wholesale and retail activities.

- The wholesale segment includes purchasing and production of women's lingerie, and distribution to external wholesale customers and the retail segment. The Group's manufacturing facilities are located in Latvia and Belarus.
- The retail segment purchases women's lingerie from wholesale segment, and subsequently sells the lingerie through own retail network in Latvia and Belarus.

There is a strong integration between wholesale and retail segments mainly through sales of goods from wholesale segment for subsequent resale in own retail network. The accounting policies of reportable segments are the same. Management estimates that intersegment transactions have been done on arm-length basis.

Primary measures monitored by the Supervisory Board are segment revenues, segment EBITDA (which is defined as profit before depreciation, amortisation, net financial income, income tax expense and gain on net monetary position) and segment net profit. These measures are included in the internal management reports that are reviewed by the Management Board and the Supervisory Board. Segment EBITDA is used to measure performance, as management believes that such information is the most relevant in evaluating the results of certain segment relative to other entities that operate within the industry.

Interest income and interest expenses are not core activities of operating segments and are not provided to management and are not evaluated by management as performance assessment criteria of segments' performance. Therefore, interest income and interest expenses are presented on net basis.

Unallocated revenues include revenues from services, commissions and rental income.
