

## **3M Delivers Second-Quarter Sales of \$7.8 Billion and Earnings of \$2.58 per Share; Company Updates its 2017 Outlook**

### **Second-Quarter Highlights:**

- **Sales of \$7.8 billion, up 1.9 percent; organic local-currency growth of 3.5 percent with positive growth across all five business groups**
- **GAAP EPS of \$2.58, up 24.0 percent year-on-year; includes \$0.33 benefit from divestiture gains net of strategic investments**
- **Returned \$1.2 billion to shareholders via dividends and gross share repurchases**
- **Updated 2017 full-year outlook: GAAP EPS of \$8.80 to \$9.05 versus \$8.70 to \$9.05, previously**

ST. PAUL, Minn. – July 25, 2017 – 3M (NYSE: MMM) today reported second-quarter earnings of \$2.58 per share, an increase of 24.0 percent versus the second quarter of 2016. Sales were \$7.8 billion, up 1.9 percent year-on-year in dollar terms. Organic local-currency sales increased 3.5 percent while divestitures reduced sales by 1.0 percent. Foreign currency translation decreased sales by 0.6 percent year-on-year.

Operating income was \$2.2 billion and operating income margin for the quarter was 28.0 percent, up 3.6 percentage points year-on-year. This result includes a net benefit of \$273 million, which is comprised of divestiture gains of \$451 million (net of lost operating income), partially offset by \$178 million of incremental investments in accelerated growth programs, productivity and portfolio actions. Second-quarter net income was \$1.6 billion, up 22.6 percent. The company's operating cash flow was \$1.6 billion, contributing to conversion of 85 percent of net income to free cash flow, as referenced in the "Supplemental Financial Information Non-GAAP Measures" section.

3M paid \$701 million in cash dividends to shareholders and repurchased \$494 million of its own shares during the quarter.

Total sales grew 7.5 percent in Electronics and Energy, 2.5 percent in Industrial, 1.8 percent in Health Care, and 0.5 percent in Consumer; total sales declined 0.9 percent in Safety and Graphics. Organic local-currency sales increased 8.4 percent in Electronics and Energy, 3.8 percent in Industrial, 3.2 percent in Safety and Graphics, 2.5 percent in Health Care, and 0.7 percent in Consumer.

On a geographic basis, total sales grew 8.3 percent in Asia Pacific, 2.5 percent in Latin America/Canada, and 0.5 percent in the U.S.; total sales declined 3.6 percent in EMEA (Europe, Middle East and Africa). Organic local-currency sales increased 10.0 percent in Asia Pacific, 3.7 percent in Latin America/Canada, and 1.9 percent in the U.S.; organic local-currency sales declined 1.6 percent in EMEA.

"Our team posted another quarter of strong and broad-based organic growth, which included positive growth across all five of our business groups," said Inge G. Thulin, 3M chairman, president and chief executive officer. "We also continued to deliver premium margins and returns, while accelerating investments to support growth and strengthen the portfolio – which is part of our playbook to build an even stronger and more competitive 3M."

Coming off a strong first half of the year, 3M updated its guidance for 2017. The company now forecasts organic local-currency sales growth to be 3 to 5 percent, up from previous guidance of 2 to 5 percent. 3M expects earnings in the range of \$8.80 to \$9.05 per share – up 8 to 11 percent year-on-year – versus a prior expectation of \$8.70 to \$9.05.

### **Forward-Looking Statements**

This news release contains forward-looking information about 3M's financial results and estimates and business prospects that involve substantial risks and uncertainties. You can identify these statements by the use of words such as "anticipate," "estimate," "expect," "aim," "project," "intend," "plan," "believe," "will," "should," "could," "target," "forecast" and other words and terms of similar meaning in connection with any discussion of future operating or financial performance or business plans or prospects. Among the factors that could cause actual results to differ materially are the following: (1) worldwide economic, political, and capital markets conditions and other factors beyond the Company's control, including natural and other disasters or climate change affecting the operations of the Company or its customers and suppliers; (2) the Company's credit ratings and its cost of capital; (3) competitive conditions and customer preferences; (4) foreign currency exchange rates and fluctuations in those rates; (5) the timing and market acceptance of new product offerings; (6) the availability and cost of purchased components, compounds, raw materials and energy (including oil and natural gas and their derivatives) due to shortages, increased demand or supply

interruptions (including those caused by natural and other disasters and other events); (7) the impact of acquisitions, strategic alliances, divestitures, and other unusual events resulting from portfolio management actions and other evolving business strategies, and possible organizational restructuring; (8) generating fewer productivity improvements than estimated; (9) unanticipated problems or delays with the phased implementation of a global enterprise resource planning (ERP) system, or security breaches and other disruptions to the Company's information technology infrastructure; (10) financial market risks that may affect the Company's funding obligations under defined benefit pension and postretirement plans; and (11) legal proceedings, including significant developments that could occur in the legal and regulatory proceedings described in the Company's Annual Report on Form 10-K for the year ended Dec. 31, 2016, and any subsequent quarterly reports on Form 10-Q (the "Reports"). Changes in such assumptions or factors could produce significantly different results. A further description of these factors is located in the Reports under "Cautionary Note Concerning Factors That May Affect Future Results" and "Risk Factors" in Part I, Items 1 and 1A (Annual Report) and in Part I, Item 2 and Part II, Item 1A (Quarterly Reports). The information contained in this news release is as of the date indicated. The Company assumes no obligation to update any forward-looking statements contained in this news release as a result of new information or future events or developments.

(a) Free cash flow and free cash flow conversion are not defined under U.S. generally accepted accounting principles (GAAP). Therefore, they should not be considered a substitute for income or cash flow data prepared in accordance with U.S. GAAP and may not be comparable to similarly titled measures used by other companies. The Company defines free cash flow as net cash provided by operating activities less purchases of property, plant and equipment. It should not be inferred that the entire free cash flow amount is available for discretionary expenditures. The Company defines free cash flow conversion as free cash flow divided by net income attributable to 3M. The Company believes free cash flow and free cash flow conversion are meaningful to investors as they function as useful measures of performance and the Company uses these measures as an indication of the strength of the company and its ability to generate cash.

<u>Net Debt (non-GAAP measure)</u>	<u>June 30,</u> <u>2017</u>	<u>December 31,</u> <u>2016</u>

Net debt (b)	\$ 8,490	\$ 8,955

(b) Net debt is not defined under U.S. GAAP and may not be computed the same as similarly titled measures used by other companies. The Company defines net debt as total debt less the total of cash, cash equivalents and current and long-term marketable securities. 3M believes net debt is meaningful to investors as 3M considers net debt and its components to be an important indicator of liquidity and a guiding measure of capital structure strategy.

**BUSINESS SEGMENTS**  
(Dollars in millions)  
(Unaudited)

Effective in the first quarter of 2017, as part of 3M's continuing effort to improve the alignment of its businesses around markets and customers the Company made the following changes:

1. Integrated the former Renewable Energy Division into existing divisions;
2. Combined two divisions to form the Automotive and Aerospace Solutions Division; and
3. Consolidated U.S. customer account activity - impacting dual credit reporting.

***Integration of former Renewable Energy Division***

- The (a) solar and wind and (b) energy product lines (along with certain technology previously included in Corporate and Unallocated) of the former Renewable Energy Division (RED) were integrated into the existing Electrical Markets Division and Electronics Materials and Solutions Division, respectively, within the Electronics and Energy business segment. In addition, the former RED's window film products were moved into the Commercial Solutions Division within the Safety and Graphics business segment. This change resulted in a decrease in previously reported net sales and operating income for total year 2016 of \$203 million and \$38 million, respectively, in the Electronics and Energy segment. These decreases were offset by a \$207 million and \$29 million increase in previously reported total year 2016 net sales and operating income, respectively, in the Safety and Graphics business segment and a \$4 million decrease and \$9 million increase in previously reported net sales and operating income, respectively, in Corporate and Unallocated.

***Creation of Automotive and Aerospace Solutions Division***

- The former Automotive Division and Aerospace and Commercial Transportation Division (both within the Industrial business segment) were combined to create the Automotive and Aerospace Solutions Division. Because this realignment was within the Industrial business segment, it had no impact on business segment reporting.

***Consolidation of U.S. customer account activity - impacting dual credit reporting***

- The Company consolidated its customer account activity in the U.S. into more centralized sales districts to better serve customers. As discussed further below, 3M business segment reporting measures include dual credit to business segments for certain U.S. sales and related operating income. This dual credit is based on which business segment provides customer account activity ("sales district") with respect to a particular product sold in the U.S. Previously, a customer in the U.S. may have been aligned to several sales districts associated with multiple divisions or segments based on the individual products the customer purchased across 3M's portfolio. The alignment of U.S. customer accounts to fewer, more focused sales districts therefore changed the attribution of dual credit across 3M's business segments. As a result, previously reported aggregate business segment net sales and operating income for total year 2016 increased \$163 million and \$36 million, respectively, offset by similar increases in the elimination of dual credit net sales and operating income amounts.

The financial information presented herein reflects the impact of the preceding product line reporting change between business segments for all periods presented. Refer to 3M's Current Report on Form 8-K furnished on March 9, 2017, for additional supplemental unaudited historical business segment net sales and operating income information. In addition, these business segment changes were reflected in 3M's Current Report on Form 8-K dated May 4, 2017, (which updated 3M's 2016 Annual Report on Form 10-K) and 3M's Quarterly Report on Form 10-Q for the period ended March 31, 2017.
